

國家理論科學研究中心(數學組)

國立中山大學應用數學系

學術演講

講者：高銘宏 教授

School of Mathematical and Statistical Sciences
Arizona State University, USA

講題：Some Design Issues for Functional Brain Imaging
Experiments

時間：2019/06/13 (Thursday) 14:10 ~ 15:00

地點：理學院四樓理 SC 4009-1 室

茶會：15:00 於理 SC 4010 室 (系辦公室)

Abstract

Understanding the inner workings of our brain is one of the very important, yet challenging, scientific tasks of our time. As in many other research fields, statistics plays a crucial role in tackling this challenge.

In this talk, I will give an overview of some issues and recent advances in the statistical design of functional brain imaging experiments. Selected theoretical results and computational tools will be introduced, and some future research of interest will also be discussed.
