

國立中山大學應用數學系

學術演講

講者：詹傳宗 教授 (東海大學物理系)
講題：An introduction to the Painleve Equations
時間：2021/11/11 (Thursday) 14:10 ~ 15:00
地點：理 SC4011 教室
茶會：13:30

Abstract

Starting from the general context and some historical backgrounds, I shall introduce the continuous Painleve equations and their discrete generalizations. Special emphasize will be put on the singularity confinement criteria and the connection preserving deformation. Finally, I'll discuss several mathematical and/or physical applications, which serve as illustrated examples for the usefulness of the Painleve equations.
