

國立中山大學應用數學系

學術演講

講者：徐學慧博士（上海市民辦中芯學校）

講題：How to design a class to cater for the needs of ESL learners

時間：2021/12/09（Thursday）14:10 ~ 15:00

地點：理 SC4009-1 教室

茶會：13:30

Abstract

To run a productive EMI class, teachers have to understand how ESL students feel and what kinds of support they need before a lecture is designed. Therefore, the first part of the talk lists some essential elements which help facilitate their learning process in an EMI class.

The second part covers the structuring of a lecture and gives examples of English expressions as signposts on the road map of the lecture in order for students to reach learning objectives with a clear direction.

Participants of this talk will be provided with some hands-on activities drawn from their own experience in order to better grasp the concepts given.
